

GRIFF'S CANADIAN ADVENTURE

The new documentary series *Griff's Canadian Adventure* follows Welsh comedian and travel enthusiast Griff Rhys Jones on an epic journey across the commonwealth country as he explores Canadian cultures and traditions, demystifies and debunks Canadian clichés, and mixes it up with beaver and polar bear encounters.

Griff is packing his snowshoes and heading across country by seaplane, train, cargo boat, dogsled and monster truck in search of the soul of Canada.

In each episode, Griff sets himself a challenge that forms the spine of his journey. Typically, the challenges are quirky and reflect the spirit of the region of Canada he is visiting.

Beautifully shot in UHD and HD, audiences will have a front-row seat to watch Griff discover the heart and soul of this immense and extraordinary country
