

## RETURN OF THE WILD THE BEARMAN OF BUNCRANA

Just a few centuries ago, Ireland was clothed in a thick blanket of Temperate Rainforest.

This Forest was inhabited by wolves, brown bears, Eurasian lynx, wild boar and many other animals that have since become extinct. Now In a small pocket of Donegal woodland, solicitor Killian McLaughlin will attempt to turn back the hands of time and return all of these majestic animals to their ancestral home.

We follow Killian through the highs and lows of his journey to return the wild animals to their rightful place in the Irish landscape. This character driven documentary will reveal Killian's compelling mission to bring back Irish fauna from extinction and to transform his woodland into a world class wildlife sanctuary.

*Return of the Wild* is a documentary series full of heart, passion, high-stakes emotions, big dreams, big predators and even bigger risks – it's certainly not to be missed.

**Duration**  
4 x half hours
