

THE GHOST OF RICHARD HARRIS

Tells the story of a once famous actor, poet, lover and singer, whose prodigious career was overshadowed by a reputation for drinking and riotous behaviour, earning him the epithet 'hell raiser'.

This fascinating documentary features Harris' three sons: BAFTA Award-winning actor Jared Harris (*Chernobyl*, *The Crown*, *Mad Men*, *The Terror*), actor Jamie Harris (*Carnival Row*, *West Side Story*) and director Damian Harris (*Brave The Dark*, *Wilde Wedding*).

It is the story of a legendary Irishman, perhaps the greatest actor Ireland has produced, who still lives in the hearts of his countrymen. And it's the story of a father whose three sons still think about him every day, since his unexpected death twenty years ago. They are still in search of, and argue about, who he really was - a complex, flawed genius.

This is not a simple biographical documentary. It is a haunting of the people and places that were dear to Richard Harris. It will be told in a unique way through unheard confessional interviews where Harris will again speak to his sons, family and friends.
