

RUMBLE & HUM

You've planned this for months, forged your story into that one timeless image and refrained from drinking for 24 hours. Now it's time to roll up your sleeves and brace yourself for the craziest tattoo experience in town. With the rumble of a V-twin engine and the hum of a state-of-the-art tattoo machine, Johannesburg-based tattoo shop Rumble & Hum will knock you where you didn't see it coming!

Watch as the wackiest mixture of comedy and tears unravels into masterpieces of ink and skin. Established artist Lewis 'Vudulew' Williams takes no prisoners with his piercing remarks, pranks and zen-like focus when he puts needle to canvas. These guys are wild, loud and insatiable when it comes to crazy humour and world-class tattooing of their eccentric clients.

Welcome to the mania and magic of ***Rumble & Hum!***
